Professional Profile

Full-Stack Developer skilled in building **modern, secure, and performant web applications**. Experienced across front-end and back-end systems, with a foundation in **cybersecurity, data analysis, and project management**. Passionate about clean, maintainable code and efficient digital solutions.

Technical Skills

Programming & Web Development:
C#, ASP.NET Core, React.js, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, REST APIs

Database & Backend:
SQL Server, PostgreSQL (Supabase), Database Design, ERD, Query Optimization

Cloud & Deployment:
Supabase, Vercel, Netlify, Git & GitHub, Azure DevOps, IIS (Microsoft)

Cybersecurity:
Penetration testing fundamentals, SQL Injection & MITM awareness, Authentication & Role-Based Access

Data Analysis:
Python (Pandas, NumPy), SQL Queries & Reporting, Jupyter Notebook, Data Cleaning, EDA

Project Management:
Agile & Scrum, SDLC Planning, Risk Management, Documentation, Team Coordination

Tools:
Visual Studio, VS Code, Postman, Sentry

Education

Advanced Diploma in Information Technology | 2025 – Nelson Mandela University
Diploma in Information Technology | 2022–2024 – Nelson Mandela University
National Senior Certificate | 2021 – Ramauba Secondary School

---

Work Experience

Work Integrated Learning (WIL) – Nelson Mandela University | 2022–2025

- Developed full-stack web applications using **C#, ASP.NET Core, SQL Server**
- Designed and maintained **relational databases** and optimized queries
- Built responsive interfaces with **React.js and modern CSS frameworks**
- Implemented **authentication and role-based access control**
- Performed debugging, testing, and system maintenance to ensure performance

---

Projects

Walk-In Dispensing System (C#, ASP.NET, SQL Server)

- Full-stack pharmacy management system
- Features: patient data management, prescription tracking, real-time updates
- Secure login & role-based access for staff

Fridge Maintenance Management System (C#, ASP.NET, SQL Server)

- Web platform for scheduling & managing fridge maintenance
- Features: maintenance logging, user notifications, reporting
- Secure back-end operations & responsive UI

Portfolio Website (Next.js, TypeScript, Tailwind CSS)

- Showcases full-stack projects, mini-apps, and security lab implementations
- Highlights modern architecture, deployment, and UI/UX
- Live: makekembav-portfolio.vercel.app

Additional Information

- Code 10 Driver's License
- Strong interest in Cybersecurity & Data Analytics
- Languages: English | Xitsonga | Tshivenda
